## ARABIAN DELIGHT

These beautiful concrete tiles are a reproduction of an **antique Moroccan tile**, which means a far more appealing price tag. There are a couple of companies producing these new tiles in the traditional style and they really help to capture **warmth and charm** in any space. The pattern in these is inlaid into the body of the tile as opposed to on the surface so the pattern doesn't wear off and actually looks better with age. In striking cobalt blue and grey tones these beauties would be a **focal point** in any room. →

## Punchy pattern

**TILES Moroccan Flower cement** (20cm x 20cm), \$165 a sq.m., Jantana Interiors.
